| Greasby, Frankby & Irby | < 5 | Increase ▲ | > 50 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Hoylake & Meols | < 5 | Increase ▲ | > 50 | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| <p>*Note: Numbers of cases are incomplete and subject to variability due to delays in uploading cases data into the SGSS reporting system. This means the numbers of confirmed cases may not be directly comparable with previous reports. For reasons of confidentiality, the rates are now shown as ranges, as numbers are now very low by ward.</p> <p>¹infection (incidence) rate - the cumulative number of confirmed cases of COVID-19 for the 7-day period divided by the total population of each area multiplied by 100,000 ²A rank of the rate of COVID-19 per 100,000 by local authority. There are 314 lower tier local authorities in England. A decrease in rank does not necessarily mean our rate is decreasing, rather, other areas rates could be increasing at a greater speed.</p> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

The weekly Coronavirus (COVID-19) surveillance report for Wirral

Week ending: Friday 12th March 2021

CONFIRMED COVID-19 CASES BY AGE AND GENDER

⁴Median age is the middle value in a range - half of the cases are younger than this age and half are older (all persons)
Note: Some case records do not currently have full age and/or gender details and are therefore not included in the above chart; therefore, figures will not sum to headline totals

ETHNICITY OF CONFIRMED COVID-19 CASES

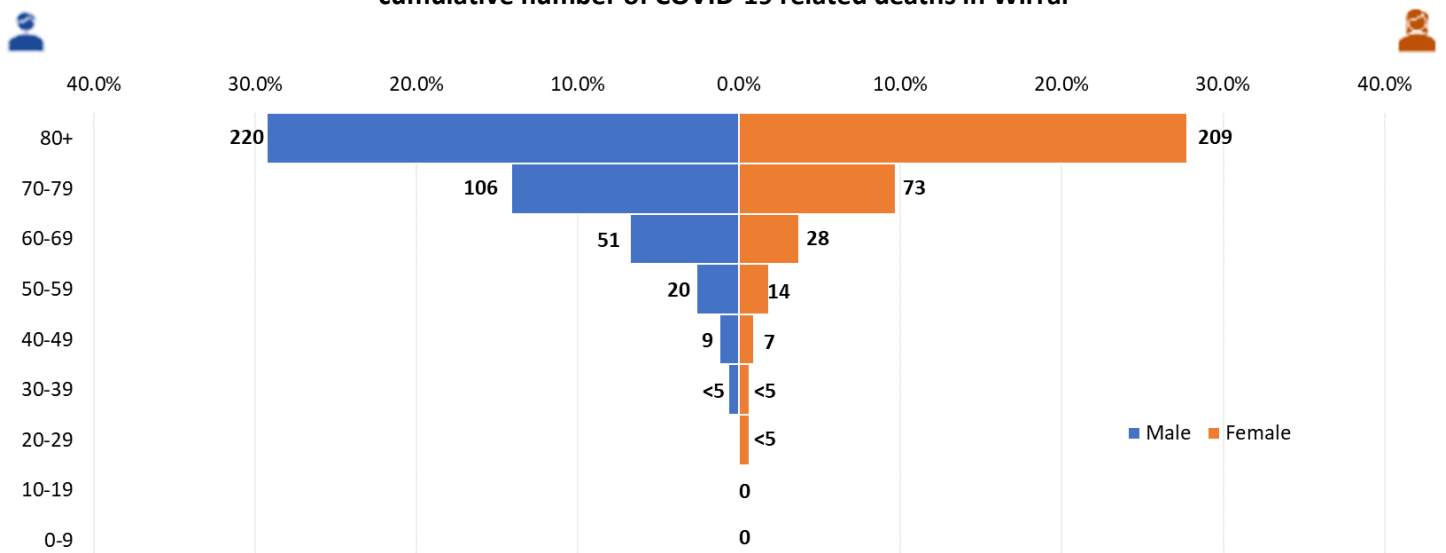

ETHNICITY OF COVID-19 DEATHS

Note: These data sets are analysed using the cumulative confirmed cases and COVID-19 related deaths in Wirral

COVID-19 RELATED MORTALITY

cumulative number of COVID-19 related deaths in Wirral

Note: The above data has followed the methodology of the PHE indicator for 'Deaths within 28 days of a positive COVID-19 test' since reporting for week ending 30th October and is therefore not comparable to reports prior to that week. The figures are still derived using a local live data source and so will therefore not exactly match the number of deaths officially reported by the Office for National Statistics or the PHE Coronavirus Tracker. Further validation of the external data sources with fully coded dates has now led to changes in the numbers reported. Some records do not currently have full age and/or gender details and are therefore not included in the above chart; therefore, figures will not sum to headline totals. Cases are subject to retrospective review and can may be reallocated to other Local Authorities.

The weekly Coronavirus (COVID-19) surveillance report for Wirral

Week ending: Friday 12th March 2021

EPIDEMIC CURVE

number of positive cases by Pillar 1 and Pillar 2 testing⁵

⁵The most recent week is a partial week and only data from more than five days ago can be considered complete
 The data are shown by the date the specimen was taken
 Pillar 1 data is for swab testing in PHE labs and NHS hospitals for those with a clinical need as well as staff
 Pillar 2 data is for swab testing for the wider population, as set out in government guidance
 LFT (lateral flow device) data is for rapid tests in the community (which also make up part of Pillar 2 testing)

HOSPITALISED COVID-19 CASES

Number of beds occupied by confirmed COVID-19 patients by bed type
 (Wirral University Teaching Hospital NHS Foundation Trust)

Note: As at 12/03/2021, there were 19 patients with COVID-19 in any acute bed; 1 of the 19 were in ITU/HDU. This is the lowest number of COVID-19 patients hospitalised since early September. The peak in patients with COVID-19 in January surpassed the previous April peak (279 compared to 131 in April).
